Mark Sundeen  
WIDNR: Northwest Regional Headquarters  
810 W. Maple Street  
Spooner, WI 54801

Dear Mr. Sundeen,

The Round Lake Property Owners Association (RLPOA) would like to submit the attached permit applications to treat Eurasian Water Milfoil on Round Lake and Little Round Lakes. Round and Little Round have a DNR approved aquatic plant management plan. The areas to be identified and treated are indicated on the attached maps for the respective lakes.

The included check(s) are to cover the permit fees for the two lakes. Also included is the application for Large Scale Treatment permit.

The survey data was compiled with support from the local AIS Coordinator for Sawyer County. The local AIS Coordinator is actively involved in monitoring these waterbodies.

Please contact me if you have any questions.

Thank You,

Thomas J. Connell
