

Riparian Owner/User Notification

Date:

Dear Riparian Property Owner:

To control excessive growth of the aquatic plant species Eurasian Water Milfoil in Round Lake the Round Lake Property Owners Association (RLPOA) proposes to conduct an application of the aquatic herbicide 2,4-D in liquid and granular forms appropriate to specific areas.

A copy of the approved WIDNR permit has been included in this notice as per NR 107.

A copy of the aquatic herbicide fact sheet is available on www.roundthelake.com

We anticipate the treatment to occur early in the week Monday – Wednesday to reduce lake-user interaction. Proposed weeks include: July 8-10 /2013 and/or July 15-17/2013. This is partially determined by observation of plant growth and weather conditions.

Lakeshore properties within 250 feet of treated areas will be posted with the approved DNR yellow warning signs. The restrictions associated with this type of treatment are 24 hours swimming, 0 hours for fish consumption, 21 days for irrigation.

As an affected riparian owner/user, you have the right to consent or object to the restrictions of water use resulting from the proposed treatment.

Please contact a RLPOA representative at 715-462-3770 or RLPOA , PO Box 1070, Hayward, WI 54843 if you have an objection to treatment. Please include your address/location.
