Subject: RLPOA Litigation
Importance: High

Attention Round Lake Property Owners:

In the past, the Wisconsin Department of Natural Resources (DNR) has ordered Sawyer County to lower the NN culverts. Sawyer County previously agreed to do so on several occasions which included the published Round Lake Task Force Report. Sawyer County recently decided to renege on their prior commitments by creating, under false pretenses, a donation of 300 feet of County Rd NN (the culverts) to the La Courte Oreilles Tribe. This proposed transaction was intended to allow Sawyer County to side step the matter and turn over the water management responsibilities of Round Lake to the tribe. The Round Lake Property Owners Association has obtained a restraining order to stop this transfer. You can follow details of this issue as documents are posted on the Round Lake Property Association website, www.roundthelake.com.

Sincerely,

Bob Strachota
RLPOA President
