Hello! Property Owners

I have recently changed my Iowa residence to

Also returned recently here from Hayward loaded with frustrations over the condition of the access beach road off Slack Road.

My father-in-law deeded that strip of land between Bob Cook's summer home and my families' beach front to the County. I tried this summer to convince the county & the authorities who patrol this property that the sandy beach that gives the access landing is nearly impossible to use. With the water is low - boat trailers have dug 1 1/2 ft deep ruts in the sand.

Thus, the water ^{level} being so low the past few years, may my neighbors & I request your help to convince the County that the launching of boats need **HELP**
— over —

to give the county some prodding
to do something about this problem.

They added small rocks (that
got washed out), then sand - none
of which have "protected
the access areas" are
useless.

Thank you VERY

MUCH if you could add
some "punch" to our complaints.
Thank you! E U #11
