

"It's God's Country." That is what Bob Hamill called the Round Lake area. Although he wasn't a big fisherman, he loved floating on the pontoon with family and friends while enjoying a beer and the scenery. Bob had a strong interest in the water quality and doing his part to keep the area beautiful. He has been gone almost three years now and we continue to keep his vision of "God's Country" by making a donation to help improve the water quality. Please join us and do what you can to help keep the lake beautiful.
